Re: Request for Extension on Submittal of Phase II RI SOW Revisions  
Former Koppers Company, Inc. Newport Site  
Newport, Delaware

Dear Lisa:

Your letter of November 28, 1995 requested that the changes in the Phase II Remedial Investigation (RI) Scope of Work (SOW) be handled through a separate submittal of the revised pertinent pages to the SOW. Although there are relatively few changes to make as compared to the previous revision to the SOW, they are broad-based and affect a number of media, requiring revisions throughout Section 4.0 of the SOW (which presents the detailed scope of the Phase II RI). In addition, the revisions may affect pagination. To avoid any potential confusion over the actual Phase II SOW, we plan to submit a complete revision of Section 4.0 of the Phase II RI SOW, bound with pertinent table and figure revisions, so that the entire scope of work is presented in one document.

In addition, there were some new issues raised in your November 28 letter that need to be discussed and clarified before the revisions can be completed. We are requesting that the submittal date for these revisions be extended to December 21, 1995 to allow time to obtain this clarification and revise Section 4.0.

I will contact you on December 5, 1995 (your next day in the office) to discuss the issues requiring clarification.

Very truly yours,

  
James Buczala  
Project Manager
